THE HIGH REPRESENTATIVE AND THE CONSTITUTIONAL CRISIS IN BOSNIA AND HERZEGOVINA	

Preface

Dear readers, contributors, ladies and gentlemen

In front of you is the 28th issue of our and your esteemed interdisciplinary scientific journal "SVAROG". We are extremely honored and pleased to announce that this edition presents nine high-quality scientific papers, the authors of which are our respected and respected domestic scientists and researchers.

Professional and scientific works in this edition of "SVAROGA" explore various scientific fields - areas such as economics, pedagogy, ecology and law.

In the field of economic sciences, respected scientists researched topics such as: Monetary policy of the EU, Dividend policy as an integral part of management in joint-stock companies - case study M:tel A.D. Banj Luka, The practice of corporate management in continental Europe and Anglo-Saxon countries - a comparative study, in addition to the mentioned topics in the field of economic sciences, the field of tourism economics was also considered.

In addition to economic topics, the authors of the scientific papers published in this issue of SBAROGA produced very high-quality papers in the field of ecology, where they were engaged in researching the burning regional problem - disposal of nuclear waste - the case of Trgovska Gora, as well as the ecological benefits of the introduction and implementation of the ISO 14001 standard in in the meat industry, expressed through concentrations of nitrogen compounds in wastewater.

Of course, in this edition, through works that treated the field of pedagogical sciences on the following topics: the influence of modern forms of learning on the emotional climate in the learning process and the assessment of the possibilities and organization of online classes by students, our esteemed scientific workers also published works from the field of legal science.

Of course, our main goal for the next editions of our and your interdisciplinary scientific journal SVAROG remains unchanged, and it is to continue to work together to raise the reputation of the journal and strive for categorization in the highest rank, in accordance with the criteria of the Ministry of Science and Technology development and higher education of the Republic of Srpska. In addition, we also aim to achieve international indexation in reputable databases. Therefore, we cordially invite scientists, researchers and academics to join us in advancing

knowledge and making significant contributions to academic discourse. Your cooperation is an integral part of our unwavering commitment to persevere in our mission.

Sincerely,
ditorial Office
